Artist Bio

The Michael Harper Project 1967 (TMHP1967) is a new retro rock reggae rhythm & blues band! **Wow!** What a exciting music genre mix, but it works and appeals to everyone.

We love to have fun and keep the party going with high energy. The band is reminiscent of great American and International Stax & Motown artist from of the 1960's like The Rolling Stones, Otis Redding & Temptations.

TMHP1967 also cover the hottest song of various artist on our set along with our high energy original hits that are proving to be the fans favorites. We are the band to book!

The band has some of Chicago best musicians, singers and dancers performing on one stage with lead singer recording artist Michael Harper.
